This home is located in a prestigious complex in central Aspen near the Galena shuttle to the gondola. Great for walking to restaurants and parks. Elegantly appointed, the 3 bedroom condominium has lovely furnishings. Light and bright it features a gourmet kitchen with granite countertop, leather counter stools, and stainless steel top of the line appliances. Beautiful hardwood floors and expensive rugs, tasteful art, and plush bedding make this a fresh, rich living experience.

The fireplace in the living room adds a warm winter glow. In the summers, enjoy the large decks with outdoor barbecue and patio furniture overlooking Aspen. There are flat screen TVs in the bedrooms and living room.
